

# "Four" Your Information

About Addison's 4<sup>th</sup> Grade

Week of February 3 - 7, 2020

## Reading & Language Arts

Students will develop their drafts for the informational essay on a severe disaster. They will be assessed in reading on poetry, prose, and drama to end our unit. Please check your child's agenda for dates. There will be nightly homework for grammar development.

## AC Reading & Language Arts

Mrs. Stewart is still recovering from her rotator cuff surgery. We welcome Mrs. Maticotta for the next couple of weeks. Many of you will recognize the name as she is another wonderful former Addison teacher.

## Math

This week we will be comparing fractions. Students will use the benchmarks 0,  $\frac{1}{2}$ , and 1 to compare. They will also look at the size of the numerators and denominators to help determine which fraction is bigger.

## AC Math

We will be continuing our study of fractions. We will continue to practice equivalence, comparing and move on to decomposing as well as mixed numbers and improper fractions.

## Science/Social Studies

This week in science we will continue our study of weather. Students have learned about weather instruments and will now learn about different types of fronts, how to read a weather map, and the difference between weather and climate. The summative test is scheduled for Tuesday, 2/11. Please study your journals nightly.

Our big culminating activity will occur next week in the learning commons with Mrs. Nelson.

## Upcoming Dates

Feb. 4 – Picture Day

Feb 10-17 – Teacher Appreciation Week

Feb. 13 – Progress Reports

Feb. 17-21 – February Break

## Reminders!

End of unit tests will be announced by each teacher several days before the test is given. This should be written in your child's agenda. Please check it daily.

This week there will be math morning work. It will be reviewed daily in class with students making corrections. Friday's assignment will have very similar questions and it will be for a math grade.
