

"Four" Your Information

About Addison's 4th Grade

Week of September 16 – 20, 2019

Reading & Language Arts

In ELA we will be continuing with vocabulary Unit 2. Students will have in-class task and nightly homework.

We will also be working on correct punctuation for writing dialogue. Our classes continue with developing a narrative essay.

Our new reading unit is on character traits. These have already been discussed during our plot and theme units.

Math

This week, we will continue to practice addition and subtraction. We will be applying both operations to solving single and multi-step word problems.

Science/Social Studies

This week Mrs. Nelson in the Learning Commons has some amazing lessons planned for us that cover our standards on map and globe skills as well as the physical and man-made features of the United States. Be sure to ask your student daily what activity they got to do in the Learning Commons.

As a reminder, all 4th grade teachers are requiring that students identify key details in social studies and science texts. Just because you learned a strategy in ELA doesn't mean you can't apply it in other subjects as well. ☺

AC Reading & Language Arts

Sign of the Beaver vocabulary test Monday

Vocabulary Workshop Unit 2 Test Tuesday

Reminders!

Please let your teacher know ahead of time of a planned absence or if a student is checking out early.

Next time you are at Walmart, Office Max, etc. we could use more white index cards. Thanks!

Please keep in mind that this is a 4th grade newsletter. All classes move at different paces.
